

African Sustainable Energies

HSE POLICY STATEMENT

Statement from Francis Odim, Chief Executive Officer AFSE.

The long-term business success of African Sustainable Energies depends on our ability to continually improve the quality of our services and products while protecting people and the environment. Emphasis must be placed on ensuring Human Health, Operational Safety, Environmental Protection, Quality Enhancement, and Community goodwill. This commitment is in the best interests of our customers, our employees, contractors, our stockholders, and the communities in which we live and work.

African Sustainable Energies requires the active commitment to and accountability for, QHSE from all employees and contractors. Operation Management has a leadership role in the communication and implementation of, ensuring compliance with, QHSE policies and Standards. We are committed to

- Protect, and Strive for improvement of, the health, safety and security of our people at all times;
- Eliminate Quality non-conformances and HSE accidents;
- Meet specified Customer requirements and ensure continues Customer satisfaction;
- Set Quality & HSE performance objectives, measure results, assess and continually improve processes, services and product quality, through the use of an Effective Management Systems;
- Plan for, respond to and recover from any emergency, crisis, and business disruption;
- Minimize our impact on the environment through pollution prevention, reduction of natural resource consumption and emissions, and the reduction and recycling of wastes;
- Improve our performance on issues relevant to our stakeholders that are of global concern and on which we can have an impact, and share with them our knowledge of successful QHSE programs and initiatives.

This policy shall be regularly reviewed to ensure ongoing suitability. The commitments listed are in addition to our basic obligation to comply with African Sustainable Energies' standards, as well as all applicable laws and regulations where we operate. This is critical to our business success because it allows us to systemically minimize all losses and adds value for all our stakeholders.
